

# Important!

This order form replaces the one included in the manual. Please use this updated form for when ordering nameplates.

## Ordering a Custom Nameplate

Thank you for purchasing the  
**SAMSON PowerBrite™**

### Get Your Nameplate Customized!

Illuminate any image that will fit within the available space—4 1/8" wide x 3/4" high. Personalize your front nameplate by following the instructions:

Please choose one of the following options:

1. Send us a clear copy of your logo sized to 4 1/8" wide x 3/4" high.  
The logo should be high contrast, i.e. black on white. It should be in good scan-able, wrinkle free condition. If a certain font is used please include that information. For best resolution, the logo should not be smaller than 4 1/8" x 3/4", or larger.
2. Logos created on computer can be sent as an email attachment (pblogo@samsontech.com) or on a 3 1/2" floppy, Zip™ disk or CD **mailed in a padded envelope** in the following formats: BMP, EPS, PICT, TIFF, Illustrator® and Photoshop®.
3. Scanned images on disk must have a minimum resolution of 300 D.P.I.
4. Any Name that fits easily in the space above (if you don't have a logo, we can use your name).

All orders must be accompanied by check or money order payable to: Samson Technologies  
for: \$8.75 within the United States  
\$10.75 outside the United States  
\$4.95 each additional logo  
(prices include shipping and handling)

Allow 4–6 weeks for delivery within the U.S.  
6–9 weeks for delivery outside the U.S.

Prices are subject to change without notice.  
Please call with any formatting questions.

Send artwork and check or money order to:
