

# EXPEDITION XP40i

## Rechargeable Portable PA

Rear panel

Samson removes the headache from public address with an all-in-one portable sound system that offers everything you need to deliver a professional and memorable presentation. The Expedition XP40i is perfect for a number of PA situations and settings, including tour groups, classrooms, conference/meeting rooms, health clubs, outdoor events and even small auditoriums.

To ensure pristine, full-range sound, the XP40i employs a 6" woofer and 1" high frequency driver. The unit is powered by a 40-watt Class D amplifier that is perfectly matched to the drivers for high efficiency and low current draw. Since this amplifier is also extremely lightweight, it enhances the portability of the system. The XP40i even has a convenient integral top handle to make it easier to transport.

Thanks to a host of features and accessories that are both comprehensive and practical, the XP40i truly is an all-in-one solution. An iPod dock with level control also gives you the option of incorporating songs or other MP3s into your performance. Plus, with bass and treble control you can tweak your sound to appropriately match your specific setting and audience.

High-quality components, professional features and convenient portability make Samson's Expedition XP40i a consummate single system solution to a wide range of public address applications.
