

POSITIONING

Samson's ultra-compact Go Mic Connect improves your digital communications and computer recordings through groundbreaking Focused Pattern Technology™. This allows users to adjust the pickup area to focus more directly on a desired sound source. Sound outside the focus pattern is reduced, making Go Mic Connect ideal for noisy VoIP communication and mobile recording environments.

FEATURES

Focused Pattern Technology™

The Go Mic Connect aligns its dual microphone capsules to create a pickup beam that can zero-in on a designated vocal source. Combining the Focus Plus and Focus Direction (Windows only) settings, users can horizontally steer the pickup beam or narrow its width for more defined results. This is especially useful in loud environments and field recording.

Sound Deck Advantage

The included Samson Sound Deck software offers Digital Noise Reduction (DNR), which reduces continuous external environmental noise, improving audio quality and limiting post-production edit time. Windows users also get Echo Erase for eliminating feedback caused by room ambience or external speakers, as well as a built-in recorder with easy file export.

Maximum Compatibility

The Go Mic Connect features a custom clip that adjusts to fit everything from thin laptops to large TV monitors. It can also stand up on a desk for use with tablets and smartphones, or fold up for transport in the included carry pouch. A Mute button and headphone output for direct monitoring complete this useful computer audio solution.

APPLICATIONS

- Business VoIP
- Skype™, FaceTime®, Google Hangouts™
- Speech-to-text dictation software
- Mobile podcasting, YouTube video production
- Audio/video editing workstations

SPECIFICATIONS

Polar Pattern.....	Omnidirectional
Capsule.....	2 x 10mm condenser capsule
Frequency Response	20Hz–20kHz
Software Filter Algorithm	Digital Noise Reduction
Sample Rate	44.1kHz/48kHz
Bit Rate.....	16bit
Power Requirements.....	5V 50mA
Product Weight	0.3lb (1.4kg)
Gift Box Dimensions	7" x 5.25" x 1.75" (178mm x 133mm x 43mm)
Gift Box Weight.....	0.5lb (0.2kg)
Master Carton Quantity.....	20
UPC (US only).....	809164016977
SKU (US only).....	SAGOMICARR
