

ACR5 Acoustic Guitar Amplifier

Hartke
SERIOUS TONE™

POSITIONING

Hartke's ACR5 is a lightweight 50-watt acoustic guitar amplifier that projects the natural sound of your instrument, while providing versatility for practice and performance. Featuring a 6.5" woofer and 1" tweeter, the ACR5's dual-channel design offers a 3-band EQ on each channel, feedback control, and reverb/chorus effects for both guitar and vocals.

FEATURES

Defined Tone

Powered by an efficient 50-watt amplifier, the ACR5 is ideal for open mic nights at small venues. Its 6.5" woofer and 1" soft dome tweeter faithfully reproduce the natural tonal characteristics of your instrument, while the 3-band EQs and 24-bit reverb/chorus effects expand sonic possibilities.

Performance Ready

Highly portable, the ACR5 features a low-profile design that weighs only 25 pounds. Its onboard tuner makes for quick and easy tuning adjustments, even on dark stages, while a footswitch input provides additional convenience. The ACR5 also fights feedback by quickly isolating offending frequencies with a provided Notch filter with variable sweep control.

Feature Packed

From portable projection to high-quality recordings, the ACR5 is more than just an acoustic guitar amplifier. Its dedicated Mic/Line channel is ideal for singer-songwriters, while a balanced XLR output enables the use of the ACR5's preamp for direct recording or seamless sound system integration. And a dedicated Contour switch provides an ideal mid-EQ shape for acoustic-electric guitars.

APPLICATIONS

- Live performance
- Practice/rehearsal
- Singer-songwriters

SPECIFICATIONS

Output Power	50W
Power Consumption	88W max.
Speaker	6.5" paper cone driver, 1" tweeter
SPL @ 1W/1m	106dB
Frequency Response	50Hz–20kHz (-3dB)
Inputs (Impedance)	Guitar: 1/4" (2.2M Ω) Mic/Line: XLR/1/4" (2k Ω /20k Ω) Aux: Stereo 1/8" (21k Ω), stereo 1/4" (21k Ω) Footswitch: 1/4" (14.3k Ω)
Outputs (Impedance)	DI: Balanced XLR (100 Ω , line level, phantom power tolerant, ground isolated) Headphone: 1/4"
3-Band EQ	Low: +/- 10dB @ 80Hz (shelving) Mid: +/- 10dB @ 1.8kHz (peaking) High: +/- 10dB @ 15kHz (shelving)
Effects	24-bit Reverb & Chorus
Grill	Mesh
Handle	Molded strap
Product Weight	25.5lb (11.6kg)
Gift Box Dimensions	14.25" x 19" x 11.75" (360mm x 480mm x 300mm)
Gift Box Weight	28lb
Master Carton Quantity	1
UPC (US only)	809164017967
SKU (US only)	HMACR5
