

TX600 Bass Amplifier

Hartke
SERIOUS TONE™

POSITIONING

Hartke's lightweight TX600 is a 600-watt Class D bass amplifier that offers the legendary Hartke tube preamp circuitry in a highly portable design. Within a compact, yet rugged enclosure, the TX600 features an onboard compressor and unique tone stack EQ section that provides players of all styles with thorough control over their sound.

FEATURES

Tone Stack

Inspired by the countless hours spent by Hartke engineers listening to bass players of all genres, the TX600's 3-band tone stack EQ uses an equalization curve tailored to bass guitar. The Shape and Frequency knobs provide detailed control of the midrange frequency voicing, while the Bass and Treble controls allow for further adjustments to create a tone that is your own.

Tube Preamp

Featuring the same Class A tube preamp circuitry as Hartke's renowned LH Series amplifiers, the TX600 produces a wide range of tone with incredible warmth and punch. The amp's Compressor knob provides control over the bass guitar's dynamics to establish a smooth, even sound, while a Brite button adds extra high frequency attack.

Transporter

Featuring an aluminum chassis and weighing only seven pounds, the TX600 is both rugged and portable. Its advanced Class D amplifier provides the tonal characteristics of traditional linear amps, minus the backbreaking weight. With a headphone output and 1/8" (3.5mm) input for playing along to your favorite tracks, the TX600 is ideal for practice/rehearsal settings. An XLR direct output also optimizes the amp for direct recording or larger performance spaces.

APPLICATIONS

- Live performance
- Studio recording
- Practice/rehearsal

SPECIFICATIONS

Inputs	1/4" Passive, 1/4" Active (-15dB), 1/8" Aux
Rated Output Power.....	600 watts @ 4 ohms 400 watts @ 8 ohms
Equalizer Type.....	Tone stack
Controls	Bass, Mid Frequency, Shape, Treble
Brite Switch	+6 dB @ 2kHz
Compression Ratio	10:1
Speaker Outputs	1/4", Speakon®
Direct Output	XLR with Ground Lift switch
Effects Loop.....	1/4" Preamp Out, 1/4" Power Amp In
Product Weight	7lb (3.2kg)
Gift Box Dimensions	6.75" x 17.75" x 14.25" (170mm x 450mm x 365mm)
Gift Box Weight.....	10.5lb
Master Carton Quantity	2
UPC (US only).....	809164019169
SKU (US only).....	HATX600
