

Q2HD

Handy Video Recorder

Zoom brought brilliant HD video and stereo sound to your movies with the Q3HD. Now, with the Q2HD Handy Video Recorder, there's only one handheld camcorder with both onboard Mid-Side stereo recording and live streaming capabilities. In addition, the Q2HD features an upgraded camera sensor, enhanced user interface and much more for capturing and sharing great looking videos that sound better than ever.

The Q2HD is the first handheld camcorder to offer Mid-Side stereo recording. With its condenser microphones in 30° to 150° Mid-Side stereo configuration, the Q2HD gives you natural depth and accurate imaging. The Q2HD also functions as a USB microphone with Mid-Side miking capabilities. In addition to the Auto Gain Control, a new analog-type Mic Gain wheel allows you to dial-in the perfect amount of gain for any recording application.

Now you can stream your videos through your computer directly to the web with the Q2HD. Simply connect your Q2HD to your computer via USB cable and start streaming like the pros. The Q2HD's streaming function is compatible with Ustream Producer, Flash Media Live Encoder, Skype and other popular streaming applications. It's never been easier to broadcast your movies on the web in real-time.

With the Q2HD, it's never been easier to shoot great videos. Select 1080p or 720p for amazing clarity and detail no matter where or what you're shooting. With a new lens and imaging sensor, the Q2HD captures exceptionally clean video that is compressed with the industry standard H.264 video codec. It also has a larger aperture, upgraded lighting settings and 4x digital zoom and. Turn the Q3HD on its side to watch your videos in "Landscape" format on its large LCD screen.

The Q2HD is packaged with everything you need to make your movies right out of the box. It includes a 2GB SD card, HandyShare editing software and two AA batteries. With a 2GB SD card, you can record over 40 minutes of HD video. The Q2HD will accept up to 64GB SDXC cards for an incredible 15 hours of HD moviemaking.
