

Q2U

Recording Pak

The Q2U brings digital and analog together in one convenient microphone. Finally, a high-quality handheld mic to meet all your live sound and digital recording needs. Take the Q2U to your gig for an exceptional live performance then take it home to record any new ideas right to your computer. Whether your passion is recording or performing, this mic has you covered.

The Q2U is a dynamic handheld microphone that features both an XLR output and a USB I/O, so it can plug directly into any live sound console or any computer with a USB input. And the microphone's On/Off switch lets you control the audio to the XLR output, allowing you to perform in a live setting and record to a computer simultaneously.

This revolutionary mic also features a built-in 3.5mm stereo headphone jack output with volume control for no-latency monitoring during recording. Plus, a cardioid pickup pattern and a high-quality A/D converter with a 16-bit, 48kHz sampling rate ensure accurate, detailed sound reproduction. It's also compatible with most computer based digital audio workstations, so your recordings can be developed with enhanced control and functionality.

As a perfect complement to such a great recording microphone, the Q2U Pak also includes a pair of HP20 stereo headphones so you can mix, monitor and listen with comfort and accuracy. The HP20's closed ear design and 40mm full-range drivers offer professional performance in any listening application.
