Samson's Resolv SE 2-Way Active Studio Reference Monitors offer a redesign from the classic Resolv A-Series monitors, with more accurate sound reproduction and a stylish new look, in three distinct models. The Resolv SE5, SE6 and SE8 all utilize the latest innovations in speaker engineering, which can be used in pairs to provide superb stereo imaging for recording, post-production and other multimedia applications.

The Resolv SE5 (70 watts), SE6 (100 watts) and SE8 (100 watts) include dedicated power amps and electronic crossovers that provide accurate tonal balance and are specifically designed for each model. Their new 5, 6 and 8-inch woven carbon fiber woofers provide tight and controlled low frequency response, while their 1.25-inch soft dome tweeters give the high frequencies a true, natural sound without unwanted resonance. Resolv SEs each include a 4-position high frequency lift control that allow you to optimize your setup for different mixing environments, and are AV shielded for operation near CRT monitors and other sensitive electronics.

These new-look enclosures are constructed of solid MDF (Medium Density Fiberboard) and feature an elegant finish on the front panels. Inset into each panel is a sleek, time-aligned waveguide that allows for a wide listening area with minimum diffraction. In addition, their slotted front ports with rounded inner edges help reduce port noise at high SPLs.

With their stylish elegance and precise engineering, Resolv SE active studio reference monitors will produce audio playback with sparkling clarity and definition to complement any recording space.

FEATURES

- 2-way active studio reference monitors with ported tuned enclosures (sold individually)
- SE5: 5-inch woven carbon fiber woofer, 70 watts
- SE6: 6-inch woven carbon fiber woofer, 100 watts
- SE8: 8-inch woven carbon fiber woofer, 100 watts
- 1.25-inch soft dome tweeter with neodymium magnet
- Active crossover with multi-pole design for linear response
- 4-position high frequency lift control
- Balanced 1/4-inch inputs, unbalanced RCA inputs
- AV shielded for use with sensitive electronics
- Solid MDF (Medium Density Fiberboard) construction

RESOLV SE5

UPC.....	809164013938
SKU.....	SARESSE5
LIST.....	\$179.99
STREET.....	\$149.99
HEIGHT.....	16.41"
WIDTH.....	11.14"
DEPTH.....	10.62"
WEIGHT.....	15.4lbs.

RESOLV SE6

UPC.....	809164013945
SKU.....	SARESSE6
LIST.....	\$239.99
STREET.....	\$199.99
HEIGHT.....	17.71"
WIDTH.....	12.40"
