

SR850

Professional Studio Reference Headphones

Samson's SR850 Professional Studio Reference Headphones offer an outstanding listening solution for musicians, sound engineers and general music enthusiasts alike. With solid bass response, ultra-clear highs and an open ear design, the SR850s ensure complete comfort and accurate headphone monitoring.

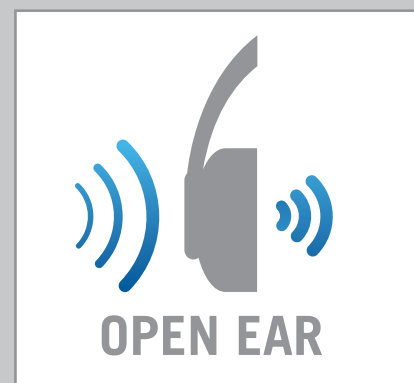

These headphones offer open ear design for enhanced ambient listening environment, allowing appropriate bleed for better stereo imaging and a wider sound stage. The 50mm drivers offer exceptional sound reproduction and wide dynamic range to instill confidence in your final mix or simply provide outstanding sound quality for your general listening pleasure.

With a self-adjusting headband for a secure, natural fit, the SR850s provide total comfort for extended studio sessions. An 1/8" to 1/4" gold-plated adapter is included with the headphones.

Whether you're enjoying music or mixing studio tracks, the SR850s offer professional performance and comfort.
