

POSITIONING

Samson's Stage X1U USB Digital Wireless Bundle brings freedom, convenience and high-quality sound to your computer recordings and digital communications. Using a USB-powered receiver and a handheld transmitter with Samson's Q6 Dynamic Microphone capsule, the Stage X1U provides 100' of wireless range, simple setup, and natural, detailed vocals. Tripod stand and mic clip included.

FEATURES

No Hassle

Unlike traditional wireless systems that require complex setup processes such as matching component frequencies, the Stage X1U automatically pairs the receiver to the transmitter. Direct connection to a computer's USB port enables instant transmission of audio to your DAW, VoIP and speech-to-text software without the need for extra cables or external audio interfaces. It's even compatible with iPads and iPhones (4S and later) using Apple's Lightning to USB Camera Adapter or iPad Camera Connection Kit (30-pin).

Clean Performance

Need to make a quick video? When used with your computer's internal webcam, the Stage X1U is ideal for creating quick audiovisuals for tutorials or music performances on YouTube. The included tripod stand and mic clip also makes the Stage X1U a perfect VoIP solution for office desktops and conference room tables.

Wireless Expedition

In addition to digital communication applications, the Stage X1U can be used with Samson Expedition Series Portable PAs that feature USB Wireless ports (XP106, XP800, XP1000) to create a completely mobile wireless presentation/performance solution. Up to two Stage X1U systems can be used simultaneously in the same location to accommodate multiple performers.

APPLICATIONS

- YouTube video production
- Podcasting/video blogging
- Presentations/karaoke
- Business/personal VoIP
- Speech-to-text dictation software

SPECIFICATIONS

Stage X1U USB Digital Wireless System

Simultaneous Systems	2
Working Range.....	100' (30m) line of sight
Working Frequency.....	2.404~2.476GHz
Modulation Type.....	GFSK
Frequency Respose	20Hz~16KHz
Signal To Noise	>85dB

RXD1 USB Receiver

Max. Analog Audio Output Level	0dBu
USB Audio Sample Rate.....	32KHz
USB Audio Support	Vista, Win7, Win8, Mac OSX without driver
Operating Voltage.....	5V DC

HXD1 Handheld Transmitter

Microphone Element	Samson Q6 dynamic
RF Power	<10 mW EIRP
Battery Life.....	20 hours from 2 x AA batteries
Accessories.....	Tripod stand, mic clip
Gift Box Dimensions	11.5" x 6.25" x 2.75" (289mm x 158mm x 68mm)

Gift Box Weight.....	1.5lb (0.7kg)
Master Carton Quantity.....	15
UPC (US only).....	809164215547
SKU (US only).....	SWX1UQ6
